Upliftment of the vulnerable through community mobilization

Community mobilization or Social mobilization aims at empowering individuals and communities to identify their needs, rights, and responsibilities, change their ideas & beliefs and organize the human, material, financial and other resources required for socio-economic development.

NIPUN is regularly organizing community mobilization drives for the underprivileged community residing at the slums and J.J. clusters of Delhi / NCR to empower them by motivating the parents to enroll their children (especially girl child) to schools who drop out or have never been to school, provide aids & appliances to the differently-abled beneficiaries, health care services, counseling session on community sanitation, etc.

NIPUN sensitized the community on Single-use Plastic

A straw with our cold coffee, a plastic bag to carry our takeout, a wrapper on a candy bar, taken individually, each seems harmless. These modern conveniences are so ubiquitous and so quickly thrown out that they hardly register in our minds. But single-use plastics come with a steep environmental price, one that we will have to pay for the upcoming generations. Our plastic addiction is having a devastating impact on our oceans, our wildlife, and our health.

NIPUN organized a community sensitization program on Single-use Plastic with an aim to increase public understanding and shape community perceptions on the dangers of plastic pollution and available solutions, thereby empowering more people to take action. Community actions can include changes in individual attitudes and purchasing habits, increased sorting and recycling behaviour, practices among others.

The community sensitization program includes rallies, meetings, distribution of IEC materials and oath taken by the youth, women and children who have participated in the programme.
